

Paving the way for Building Integrated Photovoltaics in the Nordic dimension

Sweden, Hammarby Sjöstad
PV integrated in windows, balconies and facade

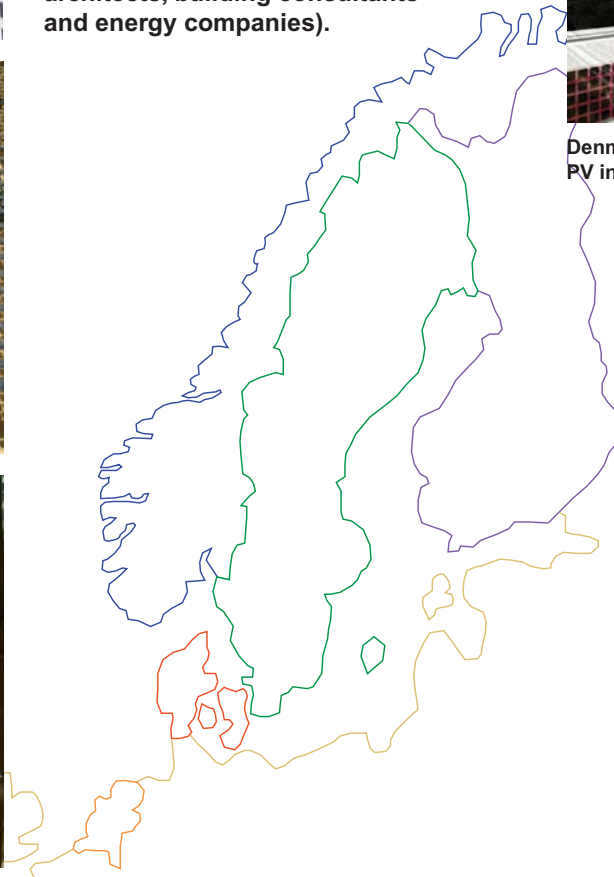

Eight Photovoltaic Demonstration Buildings in Norway, Finland, Denmark, Sweden and the Netherlands are built and evaluated by sixteen partners (developers, contractors, architects, building consultants and energy companies).

Denmark, Copenhagen
PV integrated in balcony fronts

Sweden, Hammarby Sjöstad
PV integrated in sunshading

Finland, Ekovikki
PV integrated in balcony fronts
